Hydrobiologia

The International Journal of Aquatic Sciences

Volume 537, 15 March 2005

Opinion

Application of traditional ecological knowledge in the management and sustainability of fisheries in East Africa: a long-neglected strategy?
J.M. Mathooko 1–6

Primary Research Papers

Postembryonic development in *Diaphanosoma brachyurum* (Lievin, 1848) (Crustacea: Ctenopoda: Sididae)
O.S. Boikova 7–14

Spatio-temporal changes of benthic macroinvertebrates in a cold Arkansas tailwater
R.L. Johnson, G.L. Harp 15–24

Haematological parameters in a neotropical fish, *Corydoras paleatus* (Jenyns, 1842) (Pisces, Callichthyidae), captured from pristine and polluted water
J. Cazenave, D.A. Wunderlin, A.C. Hued, M. de los Ángeles Bistoni 25–33

The influence of particle size distribution and composition on seasonal sedimentation rates in a temperate lake
D. Poister, C. DeGuelle 35–46

Effects of self-thinning of shoots on the nutrient budgets of *Zizania latifolia*
T. Asaeda, N.K. Lan, J. Manatunge 47–52

Life history, aspects of reproductive biology and production of *Corophium orientale* (Crustacea: Amphipoda) in Monolimni lagoon (Evros Delta, North Aegean Sea)
T. Kevrekidis 53–70

Factors affecting the distribution, abundance and diversity of fishes of small, soft-substrata tidal pools within Moreton Bay, Australia
J.J. Meager, I. Williamson, C.R. King 71–80

On the age and growth of flounder *Paralichthys orbignyanus* (Jenyns,1842) in Bahía Blanca Estuary, Argentina
A. Lopez Cazorla 81–87

Zooplankton community structure, micro-zooplankton grazing impact, and seston energy content in the St. Johns river system, Florida as influenced by the toxic cyanobacterium *Cylindrospermopsis raciborskii*
J.A. Leonard, H.W. Paerl 89–97

Phytoplankton assemblages in a Brazilian subtropical cascading reservoir system
C.A. da Silva, S. Train, L.C. Rodrigues 99–109

The influence of calcium on the chlorophyll–phosphorus relationship and lake Secchi depths
L. Håkanson, T. Blenckner, A.C. Bryhn, S.-S. Hellström 111–123

Absence of typical diel vertical migration in *Daphnia*: varying role of water clarity, food, and dissolved oxygen in Lake Eymir, Turkey
C.B. Muluk, M. Beklioglu 125–133

Breeding site characteristics regulating life history traits of the brown tree frog, *Litoria ewingii*
B. Lauck, R. Swain, L. Barmuta 135–146

Species richness of the Cladocera (Branchiopoda: Anomopoda and Ctenopoda) in southern Thailand, and its complementarity with neighboring regions
S. Maiphae, P. Pholpunthin, H.J. Dumont 147–156

Spatial and temporal variations in calanoid copepod distribution in the Straits of Malacca
H. Rezai, F.Md. Yusoff, A. Arshad, O. Ross 157–167

Population size and structure of three mussel species (Bivalvia: Unionidae) in a northeastern German river with special regard to influences of environmental factors
E. Weber 169–183

Morphological variation and systematics in the Scyphozoa: *Mastigias* (Rhizostomeae, Mastigiidae) – a golden unstandard?
M. N Dawson 185–206

Seasonal patterns of nucleic acid concentrations and amino acid profiles of *Parapenaeus longirostris* (Crustacea, Decapoda): relation to growth and nutritional condition
R. Rosa, M.L. Nunes 207–216

Population structure of the South American Estuarine crab, *Chasmagnathus Granulatus* (Brachyura: Varunidae) near the southern limit of its geographical distribution: comparison with northern populations
C. Bas, T. Luppi, E. Spivak 217–228

Movement and habitat use by the marbled lungfish *Protopterus aethiopicus* Heckel 1851 in Lake Baringo, Kenya
C.M. Mlewa, J.M. Green, A. Simms 229–238

Effects of waterfowl, large fish and periphyton on the spring growth of *Potamogeton pectinatus* L. in Lake Mogan, Turkey
H. Sandsten, M. Beklioglu, O. Ince 239–248

Diagenetic stoichiometry and benthic nutrient fluxes at the sediment–water interface of Lake Illawarra, Australia
W. Qu, R.J. Morrison, R.J. West, C. Su 249–264

Short Research Note

Habitat use of juvenile white sturgeon in the Kootenai River, Idaho and British Columbia
W.T. Young, D.L. Scarnecchia 265–271
